During the week, she helps customers save time and money with the eXact Micro 7+ photometer.

WATERPROOF

eXact[®]
MICRO 7+

The new eXact[®] Micro 7+ photometer from ITS, Inc., is ideal for residential, commercial, and municipal water testing. Using a U.S. Patented system, it measures over seven direct water parameters (*Total Alkalinity, Bromine, Calcium Hardness, Free Chlorine, Total Chlorine, Copper, Ozone, Permanganate and pH*) plus 17 more. The meter fits comfortably in your hand, is waterproof (IP-67) and the sampling cell and timer is built into the meter. Benefits include:

- EPA-compliant for Free and Total Chlorine regulatory testing. (4500 - CL G)
- Uses rapid and safe DPD delivery method, (20 seconds)
- 0.01 ppm (mg/L) resolution
- No color matching
- Environmental friendly which uses 60% less chemicals than other competitors products
- Other chemistries are available including:

Ammonia, Chloride (as NaCl), Chlorine Dioxide (DPD-1), Chromium Hexavalent, Cyanuric Acid, Fluoride, Iodine (DPD-1), Iron (Fe+2/Fe+3), LR Total Hardness (as CaCO₃), Manganese, Nitrate (as NO₃), Nitrite (as NO₂), pH, Acid, pH, Alkali, Potassium, Sulfate and Turbidity
